

Tips of Reading Green II

Putting Tips

1. The faster the green speed, the larger the break; the slower the green speed, and the smaller the break;
2. The break is greater on downhill putts and the break is less on uphill putts;
3. The break is greater on fine grasses, and the break is less on coarse grasses;
4. Dry greens break more than wet greens;
5. The break is greater while putting with the grain or side grain, and the break is less while putting against the grain.
